

## Information about our exhibition samples

### Candy Box

Under the motto of “Value Added Packaging”, the Candy Box stands out as an incline-produced food packaging with a memorable shape, look and functionality.

This exhibit shows that even unusual packaging blanks with a high degree of finishing can be produced highly efficiently and particularly economically inline in just one work step.

#### **Machine:**

Heidelberg ICS 670 with 8 EVA platforms, on top 6 flexo modules, one cold foil module and one hot foil stamping module, Heidelberg FCL 670 inline flatbed die-cutting and stamping station with inline stripping station and delivery, gluing line

**Suitability:** Food industry

This project was realised by PrintCity.
